

The background of the entire page is a detailed line drawing of the Eiffel Tower's internal structure, showing a complex network of beams, girders, and rivets. A large, curved arch of the tower's framework frames the central text.

The two pairs of red and yellow double decker elevators in the model serve as color guides to distinguish the north/south and east/west pair of legs.

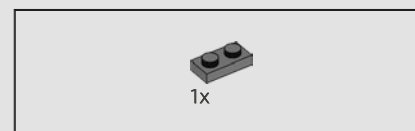

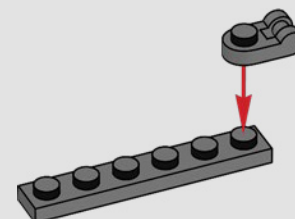

Les deux paires d'ascenseurs à deux étages rouges et jaunes du modèle servent de guides de couleur pour distinguer les paires de jambes nord/sud et est/ouest.

Los dos pares de elevadores rojos y amarillos de dos niveles del modelo sirven como guías de color para distinguir los pares de patas norte/sur y este/oeste.

The original tower is assembled from pre-made pieces, just like a giant LEGO® model! While the Eiffel tower contains 18,038 different pieces, this LEGO version has 10,001 individual LEGO elements.

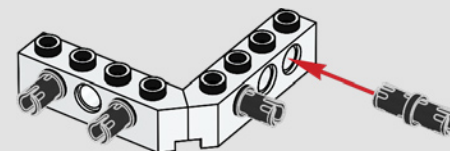

La tour originale est assemblée à partir de pièces préfabriquées, tout comme un modèle LEGO® géant ! Alors que la Tour Eiffel contient 18 038 pièces différentes, cette version LEGO comporte 10 001 éléments LEGO individuels.

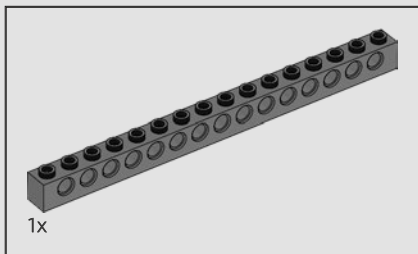

La torre original se ensambló a partir de piezas prefabricadas, ¡como si fuera un modelo LEGO® gigante! Mientras que la Torre Eiffel tiene 18.038 piezas, esta versión LEGO se compone de 10.001 elementos LEGO individuales.

The elevators of the Eiffel tower are greased every day. With beef fat.

Les ascenseurs de la tour Eiffel sont graissés tous les jours. Avec de la graisse de bœuf.

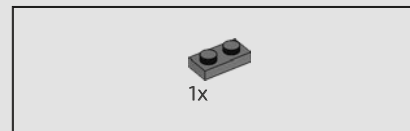

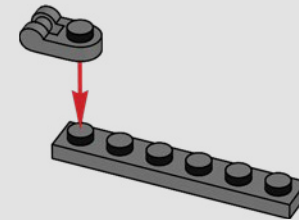

Los elevadores de la Torre Eiffel se engrasan todos los días. Con sebo de res.

Hydraulic jacks were fitted to the shoes at the base of each leg of the real tower to allow for precise alignment. The legs on the LEGO® model also have some flexibility to allow them to be joined together precisely.

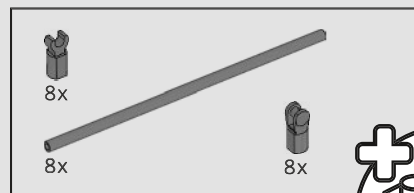

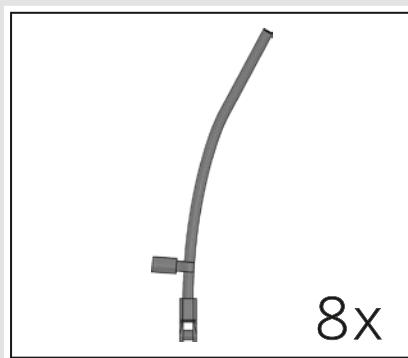

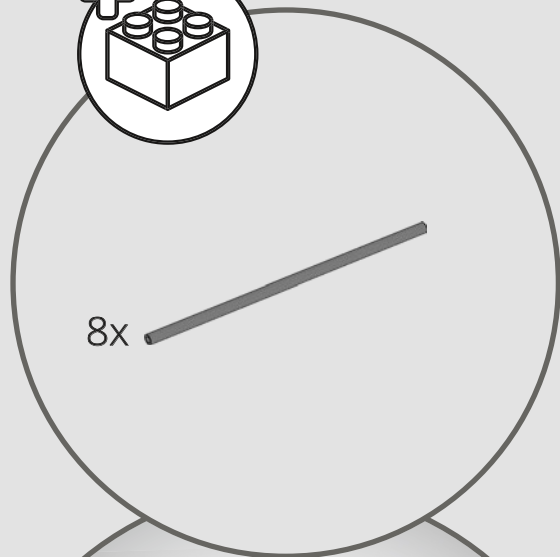

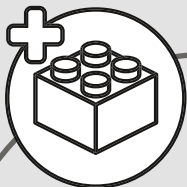

Des vérins hydrauliques ont été installés sur les sabots à la base de chaque jambe de la vraie tour pour permettre un alignement parfait. Les jambes du modèle LEGO® ont également une certaine flexibilité pour permettre de les assembler avec précision.

Se colocaron gatos hidráulicos en las bases de cada una de las patas de la torre de verdad para hacer correcciones en su alineación. Las patas del modelo LEGO® también tienen cierta flexibilidad que permite conectarlas con precisión.

The arches in between the tower's legs are recreated using LEGO® rollercoaster tracks, and the curves are completed using LEGO outer cables.

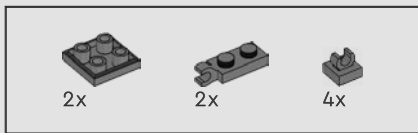

Les arcs entre les jambes de la tour sont reproduits à l'aide de rails de montagnes russes LEGO®, et les courbes sont complétées par des câbles extérieurs LEGO.

Los arcos que hay entre las patas de la torre se recrean mediante vías de montaña rusa LEGO®, y las curvas se completan utilizando partes exteriores de cables LEGO.

The arches between the legs on the Eiffel tower are not load bearing, they are purely decorative – this is also true of the LEGO® model, where the arches are also for decorative purposes only.

Les arches entre les jambes de la tour Eiffel ne sont pas porteuses, mais strictement décoratives. Ceci est également vrai pour le modèle LEGO®, dont les arches sont uniquement décoratives.

Los arcos que hay entre las patas de la Torre Eiffel no soportan ninguna carga: su función es meramente decorativa. Puede decirse lo mismo del modelo LEGO®, donde los arcos son solo para decoración.
